

Dear Diana, Boris, Ania and Ariadne,

WE NEED YOU !

Europe is in great danger, your future is at risk !

We've learnt that a hacker is going to attack different European countries in order to destroy the European alliance and to devastate European Union.

We've succeeded to intercept an email which proves that the hacker will use several terrible means to control Europe.

We've been informed lately that the hacker is planning to go to the city of Lyon, France but we don't know what for ...

We really need your help to counter the plans of this hacker !

Let's all meet on **Monday, February 4th 2019**, at **9 AM** in **Collège Jacques Duclos, Vaulx en Velin, France**.

Europe is counting on you !
